DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-14 and 23-30, drawn to a reciprocating saw with a drive assembly, classified in class 30, subclass 392.
 - II. Claims 15-18, drawn to a reciprocating saw with a shoe for movement relative to the housing, classified in class 30, subclass 373.
 - III. Claims 19-22, drawn to a reciprocating saw with a locking assembly, classified in class 30, subclass 377.
 - IV. Claim 31, drawn to a shoe assembly, classified in class 30, subclass 375.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I-IV are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. For example, the reciprocating of group II could be used without the locking assembly of group III, and conversely, the locking assembly of group III could be used with the reciprocating saw of group II. See MPEP § 806.05(d).
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
4. A telephone call was made to Kevin P. Moran on 11/04/01 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
